

SETPOINT Lancashire invites your science class or club to enter The Bluespot Crystal Competition

New activity for Spring Term 2007!

- Free entry with full instructions, risk assessments and crystal growing materials supplied for Key Stages 2, 3 and 4
- Your students will learn how to grow beautiful crystals
- Open competition for AS/A2 students to grow a crystal of their choice
- The chance to win a great science prize for your class
- Fabulous individual prizes for the best crystal in each category (KS2, KS3, KS4 and KS5)
- Opportunities to develop science communication skills and Bronze CREST Science projects

Special thanks to Prof Kenneth Libbrecht at the California Institute of Technology for the snow crystal photo <http://www.its.caltech.edu/~atomic/>
